Realistic View

1. Manufacture to IPC rigid class 2
2. Maximum Bow and Twist 0.75% (copper balancing may be added to rigid area achieve this (on approval))
3. Tear drops may be added to aid manufacture
4. Please Send Counter drawing / Gerber data for review prior to manufacture.
5. Matrial FR4 TG150
6. Surface Finish: ENIG
7. Soldermask: Photo immagable, Colour Green
8. Silkscreen: White
9. All hole sizes shown are finished sizes
10. 100% bare board test required
11. Date of manufacture
    Format WW YY
    Eg week 22 of 2025 = 22 25
